

Vihit Khetle

Dublin, Ireland +353 899837791 vihitk05@gmail.com linkedin.com/in/vihitk05 github.com/Vihitk05
Eligible for Irish Graduate Work Permission (Stamp 1G) upon course completion

Professional Summary

MSc Computer Science (Data Science) candidate at Trinity College Dublin with 14+ months of internship experience building production REST APIs, full-stack web applications, and data-driven systems. Skilled in Python, React, TypeScript, SQL, and cloud deployment, with a strong foundation in SDLC, SCRUM, and clean code practices. Comfortable working across the full stack and experienced applying AI coding tools critically and collaboratively.

Education

Trinity College Dublin Sep 2025 – Aug 2026
MSc in Computer Science (Data Science)

Dwarkadas J. Sanghvi College of Engineering, Mumbai Nov 2022 – Jun 2025
BTech in Information Technology with Minor in Data Science CGPA: 8.61/10 (First Class Honours equivalent)

Experience

Altiss Advance Technologies Pvt. Ltd., Mumbai Jun 2024 – Nov 2024
Python and Django Developer Intern

- Designed and maintained scalable REST API services using Django and PostgreSQL for a B2B logistics platform in an Agile SCRUM team; contributed to release management runbooks and technical documentation.
- Optimised SQL execution plans and indexing, reducing response time by 30%; implemented RBAC, input sanitisation, and data security protocols compliant with organisational standards.

Telkes Technologies Pvt. Ltd., Bangalore Feb 2023 – Mar 2023
Full Stack Developer Intern (Remote)

- Built full-stack web applications end-to-end using Django, JavaScript, HTML/CSS, and MySQL, delivering two client-facing features; refactored queries and introduced caching to improve speed by 40%.
- Implemented JWT authentication and RBAC across multiple modules; performed regular code reviews and supported defect resolution.

Rivan Solutions, Secunderabad Jan 2022 – Jul 2022
Python Developer Intern (Remote)

- Automated data processing workflows using Python, reducing manual effort by 5+ hours/week; designed and managed MySQL schemas for reporting pipelines.
- Assisted in onboarding two junior interns, conducting code reviews and structured knowledge-sharing sessions.

Projects

Clover – Full Stack Data Platform
Python, FastAPI, React, Next.js, TypeScript, PostgreSQL, ChromaDB, LangGraph, Docker, CI/CD

- Built a full-stack platform with a Next.js/TypeScript dashboard and FastAPI backend, structuring live external data into PostgreSQL with real-time low-latency query APIs.
- Implemented multi-agent LangGraph workflows for automation and analysis; containerised with Docker and deployed via CI/CD pipelines.

CureLinkAI – Healthcare Web Platform
Python, Flask, React, MongoDB, Machine Learning, Blockchain (Solidity)

- Built responsive React frontend and Flask REST API backend handling sensitive healthcare data with secure role-based access and end-to-end validation.
- Integrated ML classification models (85%+ accuracy) for real-time disease prediction and medication recommendations served via API.

Research Publications

Advanced Digital Asset Management through Object Detection and Captioning Models – 1st Intl. Conference on Emerging Trends in CS & Engineering

Streamlining Customer Service with DeskPro: A CRM Solution for Startups – Intl. Conference on Advanced Trends in CS & Engineering

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL, Java, C, C++

Frontend: React, Next.js, HTML, CSS, Bootstrap, Responsive Web Design

Backend: Django, FastAPI, Flask, REST APIs, OOP principles

Databases: PostgreSQL, MySQL, Oracle SQL (familiar), MongoDB, ChromaDB

Tools: Git (branching, merging), Docker, CI/CD, Postman, Linux, Figma

Cloud: AWS, Azure (familiar), Render, Netlify

Concepts: SDLC, SCRUM/Agile, Clean Code, Code Review, SOX-aware compliance, System Design
